WirelessGate Launches New Wi-Fi and SIM Card Service

- Industry's First Unlimited LTE Traffic for All SIM Cards -

WirelessGate Inc. (Head Office: Shinagawa-ku, Tokyo, Representative Director and CEO: Takehiro Ikeda, hereinafter "WirelessGate"), a wireless broadband service provider, launches a new Wi-Fi and SIM card service that will go on sale at Yodobashi Camera stores throughout Japan as well as on the online shopping site "Yodobashi-dot-com" (<http://www.yodobashi.com/>) on March 16.

The SIM card service can access the LTE network and 3G network provided by Wi-Fi and NTT DOCOMO, Inc. It will access high-speed Wi-Fi in the Wi-Fi service area, and will complementarily access LTE in areas without Wi-Fi service.

This service, providing the industry's first unlimited access to LTE for all plans, will be available at the lowest price in the industry. Moreover, both the Wi-Fi and SIM card of the new service can access the 19 million Wi-Fi access points of the world's largest community Wi-Fi "FON" in more than 200 countries worldwide *1.

The Internet access services that WirelessGate provides to consumers are as shown below, including the new service.

A list of services provided by WirelessGate (the service launched on March 16 will be marked “New Service”)

*1: The communication speed is based on a best effort system. Communication methods and access points may differ depending on the country.

*2: Free dedicated apps are provided. With the new service, searching the map of all the Wi-Fi access points provided by WirelessGate and FON is available and Wi-Fi and LTE can be switched automatically inside the access point.

*3: The communication speed is based on a best effort system and will not be guaranteed as the maximum speed of the specifications.

*4: The communication speed may be reduced and access may be restricted in the case of data communication that occupies a large amount of bandwidth continuously, such as file exchange (P2P) applications, or downloading large software in a short period of time.

*5: A separate administration fee of ¥3,240 (tax included) must be paid at the time of signing a SIM Card and WiMAX2+ contract.

*6: The SIM Card can also access the Xi™ (LTE) net and 3G net (FOMA® (W-CDMA)) provided by NTT DOCOMO, Inc. Terminals available are the LTE-compatible SIM-free terminals, or those for which Xi™ (LTE) net and 3G net (FOMA® (W-CDMA)) are available.

*7: The communication speed will be reduced when the total data traffic for three days exceeds 3GB.

*8: Monthly fee for the two-year contract when the ¥540 monthly special discount is applied (up to 25 months).
